

## TESTIMONIALS:

THE NEXT GENERATION OF HU-FRIEDY IMS CASSETTES

INSTRUMENT  
MANAGEMENT

### Académie du Sourire (FRANCE)

#### Using new generation IMS cassettes.

“ Implementing IMS cassettes into my center greatly increased efficiency, productivity and staff moral. In addition, it was so easy and cost effective.

Improving the flow in our sterilisation area expanded out to the entire office by allowing us to provide faster, easier and better dentistry for our patients. Thanks to the new modern design, we were able to provide proof of better cleaning through the use of a dental thermal disinfectant.

Additionally, the new design and electropolish finish provides a more professional appearance. This is important for us since we are also a training and education center. We couldn't be happier with the new IMS cassettes!

”

#### About: Dr. Jean-Christophe Paris - Academie du Sourire

9 avenue Henri Malacrida • 13100 Aix-en-Provence
